

Supplementary Figure 2: Low-level diagram of scdrake pipelines

Common pipelines
stages common to both single-sample and integration pipelines

Legend

target name (object type)
optional description

A → B target B depends on target A

A -.-> B target B has also multiple, not shown dependencies

SCE = *SingleCellExperiment* object
DF = *DataFrame* object
df = *data.frame* or *tibble* object
colData() = cell (column) data
rowData() = gene (row) data
CC = cell cycle
HVG = highly variable gene
PC = principal component
dimred = DIMensionality REDuction
